# Admissions Policy

# **Admissions Policy and Procedure**

## **The purpose for this policy and procedure**

The purpose of this policy is to place new arrivals or midyear admissions into the most appropriate setting in order to maximise outcomes and pupil integration.

This is the process exemplified in bullet points:

1. The Attendance Officer Secondary (AOS)/Attendance Officer Primary (AOP) makes contact with the pupil. AOS arranges the admission interview.
2. AOS/AOP liaise with Testing Officer (TO) to organise testing and pupil is invited to complete testing. This will be prior to the date of admission. Testing will be carried out at the initial interview through centrally provided assessments.
3. The details (academic and pastoral including information about all tests taken with TO) are passed to the member of SLT responsible for classes (SLTC) and the member of SLT responsible for Options (SLTO) to put the pupils in the most appropriate setting. This will be within 24 hours of testing being completed.
4. SLTC and SLTO make a decision about appropriate setting and pass info to the Options Administrator (OA) and the pupil's Head of Year (HOY). OA puts the pupil on SIMS and communicates it to the relevant HOY that invites pupil to organise induction. This will happen within 24 hours of the information being passed. Pupils name is added to SIMs 24 hours before agreed admission date so that they appear on Classcharts immediately for staff
5. The HOY makes contact to arrange a start date and an email is sent to staff communicating the new starter.
6. At the start date the pupil is given a tour, given equipment and relevant uniform items.
7. HOY also assigns a buddy and informed him/her about school rules.
